5. Appropriateness & Suitability

- 5.1 MiFID II makes a distinction between services that are simply a matter of execution and those where prior assessment is required to determine the extent to which the service and/or the product is “suitable” to the client’s needs and circumstances and “appropriate” to the client’s level of knowledge and experience. For the purposes of assessment of appropriateness, MiFID II requires certain information on clients to be obtained and formally assessed in order to ensure such appropriateness; to satisfy this requirement, we have designed an appropriateness/suitability test which we will apply to clients before providing investment services, unless the client is classified as “professional client” or “eligible counterparty”.
- 5.2 Subject always to any applicable obligations in the Regulations, the Client is responsible for making an independent appraisal and investigation into the risks of a particular transaction. The Company gives no warranty as to the appropriateness / suitability of the Financial Instruments and investment services and assumes no fiduciary duty in its relations with the Client. Where applicable to the categorisation of the Client and only in relation to Financial Instruments and services subject to the Regulations, the Company will assess the appropriateness / suitability of proposed Financial Instruments, investment services and activities for the Client. The Company will warn the Client if it concludes that a particular investment service or Financial Instrument is not appropriate / suitable for the Client, subject to the Client providing sufficient information to allow the Company to conduct the assessment of appropriateness / suitability.
- 5.3 We shall assume that information about your knowledge and experience is accurate and shall bear no responsibility if such information is inaccurate or changes without informing us and as a result we will not be able to follow our regulatory requirements of appropriateness / suitability. If you fail to provide sufficient information in this regard, we will not be able to assess whether you have the necessary knowledge and experience to understand the risks involved. If you still wish us to proceed on your behalf, we may do so, but we shall not be able to determine whether trading in CFDs is appropriate / suitable for you. Consequently, we strongly advise you to provide us with accurate information which we believe to be necessary for the purpose of enabling us to assess the appropriateness / suitability of our products for you.
- 5.4 **Warning that Service/Financial Instruments may not be appropriate / suitable:** In the event that the Company deals with the Client on an execution-only basis for the buying or selling of complex products, the Company is required to make an assessment as to whether the product or service being provided or offered is appropriate / suitable for the Client. In this case, the elements to be assessed will be the Client’s knowledge and experience in the investment sector relating to that particular category of financial instrument offered or required, so as to secure that the Client is aware of any risks. Where the Client is a Professional Client, the Company is entitled to assume that he/she has the necessary experience and knowledge to enable him/her to understand the risks involved in relation to those particular investment services or transactions, or types of transaction or product, for which he/she has been classified as a professional client. If the Client does not consider that he/she does have the necessary knowledge and experience, he/she must make the Company aware of this prior to the provision of such product or service and provide the Company with any available information as to the level of his/her knowledge and experience. The Company accepts no liability in these circumstances.
- 5.5 **Warning in relation to execution only services in non-complex products:** If the Company provides the Client with execution- only Services in relation to non-complex Financial Instruments (such as shares admitted to trading on a regulated market or in an equivalent third country market, money market instruments, bonds and undertakings for collective investment in transferable securities) admitted to trading on a regulated market or in an equivalent third country market and the service is provided at Client’s initiative, the Company is not required to obtain information from the Client regarding his/her knowledge and experience, his/her financial situation or his/her investment objectives so as to enable the Company to make an assessment as to the appropriateness of the Financial Instrument or Service provided or offered. Please note, therefore, that the Client will not benefit from the protection of the relevant rules requiring the Company to assess the appropriateness of the product, Service or Transaction for the Client.

6. Risk warning – Acknowledgement of Risks

- 6.1 Contracts for Difference (CFDs) on spot Forex, spot precious metals, futures, shares, indices, virtual currencies or any other commodities available for trading are highly leveraged Financial Instruments and involve a high level of risk. It is possible that the Client loses all his/her invested Capital. Therefore these products may not be suitable for all types of investors and the Client should ensure that he/ she has understood the risk involved and if necessary the Client should seek independent expert advice.
- 6.2 The Company will assess whether a proposed Service is appropriate for the Client based solely on information supplied by the Client, including financial information, previous experience in investment products, risk tolerance and investment objectives. It is Client’s responsibility to inform the Company in writing of any information which might reasonably indicate that this assessment should be changed. Furthermore it is Client’s responsibility to ensure that such information is kept up to date
- 6.3 General views expressed to the Client (whether orally or in writing) on economic climate, markets, investment strategies or investments, trading suggestions, research or other such information are not to be viewed as advice or Company recommendations and will not give rise to any advisory relationship. Any information which the Client may receive from the Company will be given in good faith merely for Client’s information and are incidental to the provision of other services by the Company to the Client but the Company does not warrant that it is accurate or complete, or as to its tax consequences, and the Company does not accept any responsibility for any loss, liability or cost which the Client might suffer or incur in relying on such information, whether caused by Company’s negligence or through any other cause.
- 6.4 When the Client makes a decision to deal or undertake in any Financial Instrument, Service or Transaction, the Client should consider the risks inherent in such Financial Instrument, Service or Transaction, and in any strategies related thereto. The Client assessment of risk should include a consideration without limitation of any of the risks such as credit risk, market risk, liquidity risk, interest rate risk, foreign exchange risk, business, operational and insolvency risk, the risks of “over the counter” (as opposed to on-exchange) trading, in

terms of issues such as the clearing house “guarantee”, transparency of prices and ability to close out positions, contingent liability risk and regulatory and legal risk. The Client should also ensure that he/she has read and understood Company’s Risk Disclosure Policy, any accompanying Financial Instrument documentation, for example terms sheets, offering memoranda or prospectuses, and the Financial Instrument’s Contract Specifications for any further relevant risk disclosures.

- 6.5 The Client unreservedly acknowledge and accepts that, regardless of any information which may be offered by the Company, the value of any investment in Financial Instruments may fluctuate downwards or upwards and it is even probable that the investment may become of no value. The Client also unreservedly acknowledges and accepts that the price and value of Financial Instruments depends on fluctuations in the financial markets which are outside the Company’s control.
- 6.6 The Client declares and warrants that he/she has read understood and accepts the following:
- i. Information of the previous performance of a Financial Instrument does not guarantee its current and/or future performance. The use of historical data does not constitute a binding or safe forecast as to the corresponding future performance of the Financial Instruments to which the said information refers.
 - ii. Some Financial Instruments may not become immediately liquid as a result e.g. of reduced demand and the Client may not be in a position to sell them or easily obtain information on the value of these Financial Instruments or the extent of the associated risks.
 - iii. When a Financial Instrument is traded in a currency other than the currency of the Client’s country of residence, any changes in the exchange rates may have a negative effect on its value, price and performance.
 - iv. A Financial Instrument on foreign markets may entail risks different to the usual risks of the markets in the Client’s country of residence. In some cases, these risks may be greater. The prospect of profit or loss from transactions on foreign markets is also affected by exchange rate fluctuations.
 - v. A derivative financial instrument (i.e. option, future, forward, swap, contract for difference) may be a non delivery spot transaction giving an opportunity to make profit or loss on changes in currency rates, commodity or indices.
 - vi. The value of the derivative financial instrument may be directly affected by the price of the security or any other underlying asset which is the object of the acquisition.
 - vii. The Client must not purchase a derivative financial instrument unless he is willing to undertake the risks of losing entirely all the money which he has invested and also any additional commissions and other expenses incurred.
 - viii. In the case of CFDs with underlying asset a virtual currency, there might be sudden changes in prices of certain instruments which may result in significant loss over a short period of time. This can happen during economic event or market announcements or geopolitical events, news, or even due to adverse media or fake news. Gaps can occur when markets open or close or even during normal trading hours. If the market is closed when these factors occur, the opening price of the underlying asset can be substantially different from the closing price, giving you no opportunity to close your trade in-between. Pricing gaps can result in significant losses. Therefore, CFDs on virtual currencies may be subject to large price fluctuations and in some instances, due to the early stages of their lifecycle, they may lose entire value.
- 6.7 Since virtual currencies are traded on various exchanges worldwide (non-centralized), and since we derive our pricing from certain exchanges and/or liquidity providers our pricing might be significantly different than prices from other exchanges and/or liquidity providers. Accordingly price formation and price movements of the virtual currencies depend solely on the internal rules of the particular digital exchange/liquidity providers, which may be subject to change at any point of time and without notice. This often leads to very high intra-day volatility in the prices of the virtual currencies which may be substantially higher compared to financial instruments under the MiFID II. You should understand the above, and maintain your account balance accordingly, knowing that our prices can be different from prices observed elsewhere.

- 6.8 In the case of CFDs with underlying assets virtual currencies, due to leverage and volatility, your positions and account status can change rapidly. It is your responsibility that at all times you monitor your account, margin level and profit/loss, and act as needed to protect your equity.
- 6.9 The Client acknowledges that the risk reducing orders or strategies such as “Stop Loss” or “Stop limits” that are intended to limit losses to certain amounts may not always be executed because of unusual market conditions or technical limitations. Strategies using a combination of positions may be just as risky as or even riskier than simple “Long” or “Short” positions.
- 6.10 Under abnormal market conditions, CFDs may fluctuate rapidly to reflect unforeseeable events that cannot be controlled either by the Company or the Client. As a result, Kawase may be unable to execute the Client’s instructions at the declared price and a “stop loss” instruction cannot guarantee to limit the latter’s loss. This may occur, for instance, at the following cases:
- i. During Market Opening;
 - ii. During news times;
 - iii. During volatile markets where prices may move significantly up or down and away from declared price; and or
 - iv. Where there is rapid price movement, if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted.
 - v. If there is insufficient liquidity for the execution of the specific volume at the declared price
- 6.11 The Client unreservedly acknowledge and accept that he/she runs a great risk of incurring losses and damages as a result of the purchase and/or sale of any Financial Instrument and he/she accepts and declares that he/she is willing to undertake this risk.

8. Client's Orders and instructions

- 8.1 The Client understands and acknowledges that all orders executed between the Client and the Company are orders executed outside a regulated market or MTF.
- 8.2 The Client may give instructions to the Company in (a) writing and duly signed, (b) by electronic means or (c) verbally, by telephone or in person provided that the Company is satisfied, at its absolute discretion, of the caller's/Client's identity and clarity of instructions. The Company may refuse the Client the execution of Transactions in case of lack or clarity or if the instructions do not include essential operations such as opening position, closing position, changing or removing Orders.
- 8.3 In case of an Order received by the Company by means other than through the Electronic Trading Platform, the Order will be transmitted by the Company to the Electronic Trading Platform and processed as if it was received by the Client through the Electronic Trading Platform.
- 8.4 The Client may send instructions for the following types of orders:

- 8.5 The Client may trade through his/her trading account from 21.01.00 (UTC) on a Sunday until 20.57.00 (UTC) on a Friday, with a daily suspension of pricing and trading from 20:59 UTC to 21:01 UTC. It should be noted that certain financial instruments have specific timeframes, which can be found in the Company's website and/or platform or being notified via email about changes in specific instruments due to holidays. The Client is responsible to regularly visit the Contracts specifications in the Company's website or trading platform of such instruments for further details, before trading.

- 8.6 In the absence of any other agreement between the Company and the Client, the Company will act on any instruction which it reasonably believes to have been given, or purporting to have been given by the Client or any person authorised on Client's behalf, without enquiring as to the genuineness, authority or identity of the person giving or purporting to give such instructions.

- 8.7 The Client must ensure that any instructions given to the Company is clear and intelligible. If the Client does not provide such instructions promptly, clearly and in an intelligible form, the Company may, at its absolute discretion, ask the Client to confirm the instruction in writing, in such form as the Company may request, before it acts on it, or take such other steps at Client's cost as the Company considers necessary or desirable for its own or Client protection, or take no action on Client's instructions. The Company is not obliged to accept instructions to enter into a Transaction unless it is required to do so by any Applicable Regulations. If the Company declines to enter into a Transaction, it is not obliged to give a reason.

- 8.8 The Client acknowledges and agrees that the Company shall be entitled to record all conversations/communications between the Client and the Company or any representative thereof and maintain such records at its discretion and without further notice (unless required to do so by applicable Regulation). Such records will be the Company's property and shall be accepted by the Client as evidence of his/her orders or instructions. The Company has the right to use recordings and/or transcripts thereof for any purpose which it deems desirable. The Client can request to receive these records from the Company.

- 8.9 The Company reserves the right, at its absolute discretion to confirm in any manner that it may determine the instruction and/ or Orders and/or communications sent through the Trading Platform. By entering into this agreement the Client accepts the risk of misinterpretation and/or mistakes in the instructions and/or Orders through the Trading Platform, regardless of how they have been caused, including but without limitation, technical or mechanical reasons.

- 8.10 The Client has the right, at his own risk, to use a Power of Attorney to authorize a third person (representative) to act on behalf of the Client in all business relationships with the Company as defined in this Agreement provided that:
 - a) the Client has informed the Company in writing in such a manner as the Company may at any time determine,
 - b) the authorized person has been approved by the Company
 - c) that both the Client and the authorized person have fulfilled such conditions, including the execution of such document, that the Company may at any time and at its discretion determine

Unless the Company receives a written notification from the Client for the termination of such representative authorisation, in such a

manner as the Company may at any time determine, the Company may continue accepting instructions and/or Orders given by such representative on behalf of the Client, and the Client shall recognise such Orders as valid and binding. The written notification by the Client for the termination of the authorisation of the representative must be received by the Company with at least two (2) Business Days' prior notice.

The Company reserves the right at its discretion and without notice to the Client, to refuse to accept instructions from any authorized person and to consider the appointment of any such authorized person as terminated. Furthermore the Company may, at any time and at its discretion, reject any existing and previously accepted power of attorney between the Client and any authorised representative, and may reverse any relevant Transactions and restore the affected Trading Accounts' Balance.

- 8.11 The Client can open and close a position via its Company's Trading Platform and add or modify orders by placing "Buy Limit", "Buy Stop", "Sell Limit", "Sell Stop", "Stop Loss", and/or "Take Profit" on any Financial Instrument offered by the Company.
- 8.12 Once given, instructions may only be withdrawn or amended with Company's consent. The Company can only cancel Client's instructions if the Company has not already acted upon them. If, after instructions are received, the Company reasonably believes that it is not practicable to act on them within a reasonable time, or the Company reasonably believes that it is in Client's best interest not to act on such instructions, the Company may defer acting upon those instructions until it is in Company's reasonable opinion, practicable (or in Client's best interest) to do so, or notify the Client that the Company declines to act upon such instructions. Any type of order, as described in Company's Order Execution Policy which is unavailable through the Electronic Trading Platform will be automatically rejected by the Company. The status of the Orders is always shown on the Electronic Trading Platform. In the event that access to the Electronic Trading Platform is not possible, the Client may contact the Company by telephone and request the status of any of his/her pending Orders. The Company will not be liable for any losses resulting from any delay or inaccuracy in executing Client's instructions, nor in deferring acting or refusal to act.
- 8.13 The Company shall not be liable for any loss, expense, cost or liability (including consequential loss) suffered or incurred by the Client as a result of instructions being given, or any other communications being made via the internet or other electronic media. The Client will be solely responsible for all orders, and for the accuracy of all information, sent via such electronic media using Client's name or personal identification number. The Company shall not be held responsible for delays or inaccuracies in the transmission of any instruction or other information or the execution of orders due to any cause whatsoever beyond the reasonable control of the Company.
- 8.14 The Client's orders are executed at the "BID"/"ASK" prices offered by the Company and which the Client can see in the Electronic Trading Platform. The Client places his/her order at the prices he/she sees on his/her Client terminal and the execution process is initiated. Normally the transaction is executed at the prices the Client can see on his/her Client terminal. Due to the high volatility of the markets as well as the internet connectivity between the Client terminal and the server, the prices requested by the Client and the current market price may change, during the confirmation process. In this event, the Company has the right to decline the Client's requested price and offer a new price. The Client can either accept the new price and execute the transaction or refuse the new price, thus cancelling the execution of the transaction.
- 8.15 Under certain trading conditions it may be impossible to execute Orders on a Financial Instrument at the declared price. In this case the Company reserves the right to execute the Order or change the opening or closing price of the transaction at a first available price. This may occur, for example, at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted. Or this may occur in the trading session start moments (opening gaps). So as a result, placing a "Stop—Loss" Order will not necessarily limit the Client's losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price.

- 8.16 In case of force-majeure, hacker attacks or other illegal actions against the Electronic Trading Platform or the equipment of the Company, and also in case of a suspension of trade in the financial markets concerning Financial Instruments, the Company may suspend, freeze or close the Client's positions and request the revision of the executed Transactions.
- 8.17 By entering into this agreement the Client duly acknowledges and agrees that:
- The Company's trading hours may be different from the hours that a specific Financial Instrument is tradable in any other market. The Company reserves the right to take any action, at its sole discretion, that includes but it's not limited to execution, modification, opening and closing of any of the Clients positions as a result of the price movements outside Company's Trading Hours.
- 8.18 By entering into this agreement the Client acknowledges that he/she understands and agrees that the Company is the sole counterparty and therefore when the Company executes a transaction for (or with) the Client it may be engaging in a similar trading for (or with) other clients, Company's affiliated companies, or for own account, subject to the provisions of Applicable Regulation.
- 8.19 To the extent permitted by Applicable Regulation, the Client agrees that the Company will not owe the Client any duties of best execution in respect of a regulated investments services falling outside the scope of MiFID II.
- 8.20 There are a number of situations where the Company will not owe the Client any duties of best execution (as more fully set out in the information regarding our Order Execution Policy). These include without limitation the following scenario. - 8.21 When executing orders on Client's behalf the Company will do this in accordance with its Order Execution Policy as amended from time to time to which the Client consent. Company's Order Execution Policy is presented together with this Agreement. The latest version of Company's Order Execution Policy will also be available on the Company Website or from Client's usual contact with the Company.
- 8.22 Considering the volume of the Client's order and the current market conditions, the Company reserves the right to proceed with partial execution of the Order.
- 8.23 The Company has the right at its absolute discretion to increase or decrease the spreads of any Financial Instrument depending on the current market conditions and the characteristics of Client's order.
- 8.24 The level of Swap rates may vary in size and change depending on the market conditions and at Company's discretion.
- 8.25 The Company reserves the right to disable and/or enable swap free trading for Client 's Trading account at any given time if it has enough reasons to believe that the Client is abusing the Company's systems and trading conditions or where the Client's trading strategy imposes a threat to the Company's smooth operation of its trading facilities.
- 8.26 The one (1) standard Lot size is the measurement unit specified for each Financial Instrument traded in the Electronic Trading Platform. The Company only accepts orders that are placed in the Lot Sizes described in Contracts specifications in the Company's website. The Company may change the Contract Specifications at any time depending upon the market situation. The Client further acknowledges that it is his sole responsibility to review the contract specifications located on the Company's website before placing any order with the Company.
- 8.27 The Client has the right to request to change his/her account Leverage at any time during his relationship with the Company. The Client acknowledges that the Company has the right, at its absolute discretion, to modify at any time Client's trading account leverage without Clients consent, either permanently or for a limited period of time by informing the Client by written notice sent either by

regular mail or email, or through the Electronic Trading Platform. At every Friday, the Company has the discretionary right between the hours 21:00 and 24:00 server time to set the maximum leverage at 1:100 for opening a new position.

- 8.28 By entering into this agreement the Client acknowledges that he/she has read, understood and accepts the “Leverage Levels” as these are described in the Company’s website, and that the Client’s account leverage may be changed by the Company based on Client’s deposit amount or exposure on a single Financial Instrument.
- 8.29 The maximum allowed leverage level for the Clients who are using API trading, which is available through the Company’s platform, is 1:100.
- 8.30 Trading operations using additional functions/plugin made available through the Electronic Trading Platform such as “Trailing Stop” or “Expert Advisor” are executed completely and exclusively under the Client’s responsibility and at his/her own risk, as they depend directly upon the Client, and the Company bears no responsibility whatsoever. The Company reserves the right to accept or reject at its own discretion the use of additional functions/plugin of the Electronic Trading Platform and in case these additional functions/plugin affect the reliability and/or smooth operation and/or orderly of the Company’s Trading Platform to immediately terminate by way of written notice the relationship with the Client.
- 8.31 The Company has the right, at its own discretion, to start closing Clients positions at margin level less than 50% and at margin level of equal or less than 35% the Company will automatically close Client’s positions at market price.
- 8.32 In case of absence of any trading activity within 90 calendar days of the Client’s account, the Company reserves the right to charge a fixed payment of 5 USD/EUR/GBP/CHF or 600 JPY (depending on the base account currency) per month in order to maintain the account, assuming that the Trading Account has the available funds. - 10.1 Customers must be aware that Forex transactions carry a high degree of risk. The amount of initial margin may be small relative to the value of the foreign currency so that transactions are ‘leveraged’ or ‘geared’ A relatively small market movement may have a proportionately larger impact on the funds that the Customer has deposited or will have to deposit. This may work against as well as for the customer.
- 10.2 The Company offers “Negative Balance Protection” (“NBP”) thus a Client may not lose more than its invested capital. Although this is a regulatory requirement, the negative balance protection cannot be used for purposes of manipulation of our trading facility or used for conducting abusive trading. As such, they may not directly correspond to real time market levels at the point in time at which the sale of CFD occurs.

We shall be entitled to add a mark-up to the exchange rates. On request, the Client may open a sub-account.

- 15.5 This Agreement shall become effective upon the first funding of the Client's Account, provided the Company has sent the Client a written confirmation for his acceptance.

- 15.6 It is the Client sole responsibility to inform the Company as to whether information concerning Client's account Transactions should be reported to Client's employer, including its compliance officer, and as to whether contract notes and statements of Client's account should be sent to that compliance officer or to any other person authorized by Client's employer to receive such information.

- 15.7 The Client understands that no physical delivery of a CFD's underlying asset that he has traded through his/her Account shall occur. All CFD contracts can only be settled in cash. The prices of these instruments are derived from the underlying assets or currency pairs related to these CFDs, but in no way you are acquiring any right for delivery of the underlying asset/currency. Moreover, engaging in trading CFDs with underlying asset a virtual currency pair, and due to high s nature of these pairs, you might be exposed to higher risks than trading the assets themselves or trading other CFDs with other underlying assets.

16. Safeguarding of Client's funds

- 16.1 When holding Client funds on Client's behalf the Company shall take every possible measure to safeguard the funds against the use of client funds for its own account.

- 16.2 Client's funds will be held by the bank and/or any other institution permitted under Applicable Regulation the Company may select (which may include affiliated companies), in the name of the Client and/or the name of the Company on behalf of the Client in a separate bank account specially designated as "Client account".

- 16.3 The Company will maintain separate records in the accounting system of its own funds/assets and funds/assets kept on behalf of

Clients so as at any time and without delay to distinguish funds held for one Client from funds held for any other Client, and from its own funds/assets.

- 16.4 Unless otherwise agreed with you in writing, the Company will deal with any funds that we hold on your Account in accordance with the relevant provisions of "Safeguarding the Clients' Money" that are provided in the applicable CySEC's legislation. All amounts handed over by the Client to the Company or which the Company holds on behalf of the Client, for the provision of Investment Services, shall be held in the name of the Client and/or in the name of the Company on behalf of the Client in a Client Bank Account. This means that your funds will be segregated from our own money and cannot be used in the course of our business.
- 16.5 The Company aim to hold your money only in EEA regulated financial institutions which employ and have Client Money rules similar to ours and which are supervised by regulatory authorities of equivalent status to ours. In the unlikely event that we may hold Client Money outside the EEA, the legal and regulatory regime applying to any such financial institution will be different from that of the EEA and in the event of the insolvency or any other analogous proceedings in relation to that financial institution, your money may be treated differently from the treatment which would apply if the money was held with a financial institution in an account in the EEA.
- 16.6 We do not hold Clients' Money in unregulated financial institutions. We may, however, pass on Clients' Money to any regulated third party (e.g. a bank, a market maker or liquidity provider, merchant, e-wallet, intermediate broker, OTC counterparty or clearing house) to hold or control in order to effect a Transaction through or with that person or to satisfy your obligation to provide collateral (e.g. initial Margin requirement) in respect of a Transaction. We carry out annual risk assessments of all regulated third parties we work with, but have no responsibility for any acts or omissions of any regulated third party to whom we pass money received from you. The regulated third party to whom we pass money may hold it in an omnibus account and it may not be possible to separate it from our money, or the third party's money depending on the third party's regulatory provisions. In the event of an insolvency or any other analogous proceedings in relation to that regulated third party, we may only have an unsecured claim against the regulated third party on behalf of you and our other Clients, and you may be exposed to the risk that the money received by us from the regulated third party is insufficient to satisfy the claims of you and all other Clients with claims in respect of the relevant account. The Company accepts no responsibility for any funds not deposited directly into the Company's bank accounts, for losses (directly or as a result of) due to delays and/or failures to deposit/remit funds through affiliated and/ or third parties.
- 16.7 As long as the Margin required on the Client's Account for maintaining open Transactions with the Company, the Client agrees that the Company has the right to transfer ownership of this Margin from the Client to the Company, to be maintained by the latter as security and be returned by the Company to the Client on closing of the Client's Transactions. In this case, the Margin will be considered as a debt due by the Company to the Client and not as Client Money, therefore it could be used by the Company subject to the repayment obligation.
- 16.8 The Company will not be liable for any failure or insolvency of any bank and/or financial institution in which Client Money are held, however, applicable investor compensation scheme may protect a proportion of the money in default.
- 16.9 One of the risks of holding Client Funds in segregated accounts is that market movements may cause a client's account may go into negative equity and Kawase may be unable to redeem these funds, thus creating a deficit in the other client's money. To reduce this risk Kawase runs an Automated Margin Stop Out System designed to prevent any client from falling into a negative balance. Additionally Kawase brings these negative balances onto our own balance sheet as a cost of business.
